Re: MAPS Replacement Notification

Dear Data Submitter:

Effective April 4, 2017, the Michigan Automated Prescription System (MAPS) will be using new software, Apriss PMP AWARxE, to support the prescription monitoring services for the State of Michigan. Prior to the transition, users submitting prescription data to MAPS will be required to register with the Apriss' PMP Clearinghouse.

Data submitters must do the following:

- Correct all errors prior to submitting data to MAPS
- Existing users of PMP Clearinghouse will not need to register with the new system
- New users to PMP Clearinghouse will need to register beginning **Wednesday, March 8, 2017**
- If you have a software vendor who submits data on your behalf, please ensure they are aware of the upcoming changes

Thank you for your assistance in making this a smooth transition for MAPS.

Should you have any questions, you may contact our MAPS support team at (517) 373-1737 or by email at BPL-MAPS@michigan.gov.

Best Regards,
