A controlled substance is a drug or other substance that the United States Drug Enforcement Administration has identified as having a potential for abuse.

I certify that I have discussed the following with the minor patient and his/her parent or guardian or with another adult authorized to consent to the minor's medical treatment, the following:

- a) The risks of addiction and overdose associated with a controlled substance.
- b) The increased risk of addiction to a controlled substance to an individual who is suffering from both mental and substance abuse disorders.
- c) The danger of taking a controlled substance containing an opioid with benzodiazepines, alcohol or another central nervous system depressant.
- d) Any other information in the patient counseling information section of the labeling for the controlled substance that is required under 21 CFR 201.57(c)(18).
