- 47-20 Access to Opioid Agonist Treatment for Incarcerated Persons - **APPROVE**
- 50-20 Remove Clinic-Specific Caps on Buprenorphine Prescriptions - **REFER**

REPORT OF VIRTUAL REFERENCE COMMITTEE

M. Salim Siddiqui, MD, PhD, Chair

September 29, 2020

1 Virtual Reference Committee was assigned Resolutions 14-20, 21-20, 22-20, 34-20, 38-20, 41-20,
2 43-20, 47-20, and 50-20.

3
4 **14-20 - Curb Human Trafficking - AMEND**

5
6 The Committee amended the resolved portion to read:

7
8 RESOLVED: That MSMS advocate for the passage of human trafficking legislation which
9 toughens criminal and financial penalties for persons soliciting sexual activity for payment
10 rather than the victims of trafficking.

11
12 The Committee fully supports the resolution to criminalize the solicitors rather than the victims of
13 human trafficking. The two Resolved clauses were combined into one for the purpose of clarity
14 and to define the Nordic Model rather than to use the specific name.

15

17
18 **21-20 - Safe Disposal of Controlled Substances Prescribed for Home Hospice Patients –**
19 **WITHDRAWN BY AUTHOR**

20
21 The author withdrew this resolution as it had been accomplished after its submission to the
22 Resolution Review Committee.

23
24 * * * * *

25
26 **22-20 - Preserve and Increase Graduate Medical Education Funding – APPROVE**

27
28 While the AMA has policy on GME funding, this resolution specifically addresses the diversion of
29 GME funding for non-physicians, which is not included in any existing policy. The Committee
30 supports this resolution.

31

33
34 **34-20 - Board Exam Eligibility for Canadian Physicians in Michigan - APPROVE**

35
36 This resolution asks MSMS to work with the Michigan Legislature to ensure Canadian physicians
37 who have passed the Medical Council of Canada Qualifying Examination Part I and Part II are
38 eligible to be licensed in Michigan without having to take the United States Medical Licensing
39 Examination. This resolution received significant testimony from delegates. After thorough
40 dialogue from members, the Committee agreed to support this resolution due to Michigan’s
41 proximity to Canada and that 44 other states already allow this eligibility.

38-20 - Involuntary Hospitalizations of Patients with Serious Mental Health Illness - AMEND

The Committee amended the resolved portions to read:

RESOLVED: That MSMS continue to advocate that community mental health agencies and hospital administrators should, at all times, respect the Emergency Medical Treatment and Labor Act regarding inter-facility transfers of patients with serious mental health issues; and be it further

RESOLVED: That MSMS supports appropriate modification of the Michigan Mental Health Code in order to make involuntary hospitalization more rapidly accessible for mentally ill persons requiring such intervention for the benefit of their safety and the safety of others.

The Committee fully understands and supports the intent of this resolution. Committee members believed the issues surrounding facility transfers and involuntary admissions were already well outlined by the author and additional verification of the problem was not needed. Therefore, the first two Resolved clauses were omitted to focus MSMS' time and energy on addressing the complex issues regarding mental health treatment.

* * * * *

41-20 - Oppose Criminalization of Physicians and Patients for Evidence Based Standard of Medical Care - AMEND

The Committee amended the resolved portion to read:

RESOLVED: That MSMS oppose the criminalization of physicians for delivering evidence-based standard of medical care, as well as for refusing to engage in care that is neither safe nor evidence based.

The Committee fully supports policy that would oppose the criminalization of physicians for delivering evidence-based standard of medical care, as well as for refusing to engage in care that is neither safe nor evidence based. The Committee omitted the second Resolved clause as the first one is well crafted and broad enough to cover all types of medical care, therefore not needing to specify one treatment or procedure over another.

* * * * *

85 **43-20 - Anonymous Prescribing Option for Expedited Partner Therapy - APPROVE**

86
87 MSMS and AMA have policies that support Expedited Partner Therapy (EPT). This resolution asks
88 for the next practical step to be able to prescribe EPT with an EMR. Therefore, the Committee
89 supports this resolution.

90
91 * * * * *

92
93 **47-20 - Access to Opioid Agonist Treatment for Incarcerated Persons – APPROVE**

94
95 This resolution asks MSMS to advocate for the availability of all types of opioid agonist treatment
96 for opioid use disorder for incarcerated persons. The Committee supports this resolution.

97
98 * * * * *

99
100 **50-20 - Remove Clinic-Specific Caps on Buprenorphine Prescriptions – REFER**

101
102 The Committee was supportive of the intent of this resolution. However, the issues surrounding
103 the administrative rules versus the legislation referred to in the first Resolved, as well as a
104 discussion around removing or increasing the cap, led the Committee to decide additional
105 expertise was needed. Committee members believed that specialists on the MSMS Task Force on
106 Substance Use would be better suited to make a recommendation. Therefore, the
107 recommendation is that this resolution be referred to the Board.
