

## Revalidation Notices

All providers who enrolled with Medicare prior to March 25, 2011, are required to revalidate their Medicare enrollment by submitting the appropriate CMS-855 Medicare enrollment application(s) to their Medicare contractor in response to revalidation notices sent between September, 2011 and March, 2015.

WPS Medicare strongly encourages providers to use Internet-based PECOS for revalidation, as using Internet-based PECOS to complete revalidation could result in a faster processing time than using a paper application to complete revalidation (45 day processing time in most cases, vs. 60 days for paper). If you are not already signed up for PECOS web access, [register for a user account](#).
