

**RESOLUTION 7 – 06A**

**Title:** Government Generated Medical Information

**Introduced by:** Thomas S. Markus, MD, MI Section, American College of Obstetricians and Gynecologists

**Original Author:** Susan Hendrix, DO

**Referred to:** Reference Committee E

**House Action:**

---

**Whereas, there have been instances of state and federal agencies publishing booklets, leaflets, tracts, or pamphlets intended for the medical education of the general public in which incorrect information is imparted, and**

**Whereas, it is almost certain that such instances will occur in the future; therefore be it**

**RESOLVED: That all government medical informational materials should, as much as possible, be medically accurate, be based upon accepted scientific principles and also be based upon the generally accepted scientific studies; and be it further**

**RESOLVED: That all government informational materials be generated in conjunction with appropriate medical specialty input.**

---

**WAYS AND MEANS COMMITTEE FISCAL NOTE: NONE**
