RESOLUTION 29-10A

Title: Easing Physician Prescribing From Formularies

Introduced by: Annette M. Mercatane, MD, for the St. Clair County Delegation

Original Author: Annette M. Mercatante, MD

Referred to: Reference Committee A

House Action: Substitute Resolution – Adopted as Amended

Whereas, different insurance carriers have different drug formularies that are complex to keep track of, and

Whereas, selecting the right medication from the correct formulary for patients is time consuming and frustrating for the primary care physician; therefore be it

RESOLVED: That MSMS explore ways to make it easier for physicians to learn about individual patient’s drug formulary limits to allow easier prescribing. Such means could include better real-time access to up-to-date, accurate formulary lists including electronic options.

WAYS AND MEANS COMMITTEE FISCAL NOTE: NONE
