13  
14 Whereas, many physicians have become leaders in business enterprise such  
15 as insurance, hospital, health care system, biomedical, pharmaceutical, and  
16 information technology companies, and  
17

18 Whereas, there are significant changes in health care economics and in the  
19 practice of medicine, and  
20

21 Whereas, many physicians, especially "young" physicians, are attracted to the  
22 innovative side of medical practice, and  
23

24 Whereas, the American Medical Association (AMA) can provide support to  
25 such physicians by offering business and entrepreneurial training as a tangible benefit  
26 of being an AMA member; therefore be it  
27

28 **RESOLVED:** That the American Medical Association (AMA) study the  
29 possibility of developing an entrepreneur and business training academy to offer  
30 online and onsite training and skill development for AMA members.
